

CITY OF
LADUE

Public Works

To: Honorable Mayor Nancy Spewak
Members of the City Council

From: Anne C. Lamitola, P.E. *Anne C. Lamitola*
Public Works Director

Date: February 1, 2021

Subject: Bill No. 2265 – Contract with MAWC for Water Service Line Investigation related to the Willow Hill Stormwater Infrastructure Project

The City is nearing completion of the design phase for the Willow Hill Stormwater Infrastructure Project and the bid package will be issued Spring 2021. The City has been coordinating with the various impacted utility companies including Missouri American Water Company. They have determined that there are 11 water service lines that will be impacted by excavation associated with the City's project and they have the potential to be lead service lines.

Missouri American Water will conduct an investigation with respect to the 11 service lines with those costs borne by the City. Should they determine that service lines have to be replaced, the replacement costs will be the responsibility of Missouri American Water Company. Bill 2265 enables the Mayor to enter into the contract on behalf of the City. That contract outlines the conditions such as reimbursement for the investigation with those costs estimated to be \$8,330, and restoration requirements. The ordinance, contract, and exhibits which show impacted addresses, are included in the packet for your reference.
